

Highfields State School

Student Code of Conduct 2020-2024

Every student succeeding

Every student succeeding is the shared vision of Queensland state schools. Our vision shapes regional and school planning to ensure every student receives the support needed to belong to the school community, engage purposefully in learning and experience academic success.

Purpose

Highfields State School Student Code of Conduct is committed to providing a safe, respectful, postive and inclusive learning environment. It supports all members of our school and its community to understand and meet legislative obligations, to maintain good order and management and provide access to state education to ensure all students can participate in and gain positive outcomes from schooling.

Learning and Behaviour Statement

Everyone brings their own sets of personal beliefs to a school community. These beliefs influence their decisions, behaviour and social practices. It is reasonable to expect that not everyone will share the same sets of beliefs, and this contributes to a richly diverse social environment in each school. It can also contribute to differences in expectations and force us to reflect on our own understanding of what we consider acceptable and unacceptable. We encourage any student or parent to make an appointment with the principal to discuss the model of behaviour support and discipline used at this school.

Highfields State School is a Postive Behaviour for Learning (PBL) school (www.behaviour.education.qld.gov.au). We have three expectations that underpin student behaviour:

Be safe

• At all times, members of the Highfields State School community will strive to be safe and to ensure the safety of others.

Be respectful

At all times, members of the Highfields State School community will strive to show courtesy
and respect toward each other and to themselves.

Be a learner

 All members of the Highfields State School community will be committed to a school environment where learning, teaching and service are valued.

All areas of Highfields State School are learning and teaching environments. We consider behaviour management to be an opportunity for valuable social learning, as well as, a means of maximising the success of academic education programs. To ensure this, a whole school approach to responsible behaviour is more effective and efficient.

We promote a relevant, appropriate and inclusive curriculum for all, including gender, all levels of ability and disability, culture and race; together with an organisational structure and ethos that supports and fosters participation and belonging.

Multi-Tiered Systems of Support

Highfields State School uses multi-tiered systems of support (MTSS) as the foundation for our integrated approach to learning and behaviour. MTSS is a preventative, differentiated model grounded in practical strategies, targeted planning and data-informed decision-making. Based on a problem-solving model, in MTSS school staff match increasingly intensive interventions to the identified needs of individual students.

Tier

Prevention Description

- All students (100%) in the school receive support for their academic and behavioural development. Focus is on the whole-school implementation of both the Australian Curriculum and Positive Behaviour for Learning (PBL) expectations. This involves:
 - teaching behaviours in the setting they will be used
 - being consistent when addressing challenging behaviour, while taking developmental norms and behavioural function into account
 - providing refresher lessons and targeted recognition throughout the school year so skills are ready and likely to be used when students need them
 - asking students and their families for their perspectives on school climate, instruction, reinforcement, and discipline so improvements in Tier 1 may be made.
- Targeted instruction and supports for <u>some students</u> (10-15%) are more intense that Tier 1 services, providing more time and specialisation in services from a range of school-based staff to enable students to meet the required academic and behavioural standards.

Tier 2 supports build on the lessons provided at Tier 1, and may prevent the need for more intensive interventions. Tier 2 supports are provided to small groups of students with similar needs, offering more time and/or detailed instruction on the Australian Curriculum or particular aspects of Positive Behaviour for Learning (PBL) expectations. The types of interventions offered at this level will vary according to the needs of each school's student body, but all have certain things in common:

- there is a clear connection between the skills taught in the interventions and the school-wide expectations.
- interventions require little time of classroom teachers and are easy to sustain
- · variations within each intervention are limited
- interventions have a good chance of working (e.g., they are "evidence-based" interventions that are matched to the student's need).

If the school data indicates that more than 10-15% of students require targeted services, then a review of Tier 1 is needed to address the basic implementation and quality of instruction.

Individualised services for <u>few students</u> (2-5%) who require the most intensive support a school can provide. These are usually delivered in very small groups or on an individual basis.

Tier 3 supports continue to build on the lessons and supports provided at Tiers 1 and 2, becoming more individualised and more intensive until teams can identify what is needed for a student to be successful. Tier 3 supports are based on the underlying reasons for a student's behaviour (their FBA) and should include strategies to:

- PREVENT problem behaviour
- TEACH the student an acceptable replacement behaviour.
- REINFORCE the student's use of the replacement behaviour
- MINIMISE the payoff for problem behaviour.

Tier 3 supports exist along a continuum. Many students can benefit from a simple (or brief) Functional Behaviour Assessment (FBA) that identifies unique strategies to help the student achieve success. A smaller percentage of students may require a more comprehensive FBA that includes a more thorough process for data collection, teaming, and problem solving. A much smaller percentage of students may need an intensive FBA and wraparound plan that includes personnel from outside agencies and rigorous problem solving procedures.

If the school data indicates that more than 2-5% of the student population requires individualised services, a review of Tier 1 and Tier 2 supports and organisation is recommended.

Consideration of Individual Circumstances

Staff at Highfields State School take into account students' individual circumstances, such as their behaviour history, disability, mental health and wellbeing, religious and cultural considerations, home environment and care arrangements when teaching expectations, responding to inappropriate behaviour or applying a disciplinary consequence.

In considering the individual circumstances of each student, we recognise that the way we teach, the support we provide and the way we respond to students will differ. This reflects the principle of equality, where every student is given the support they need to be successful. This also means that not everyone will be treated the same, because treating everyone the same is not fair. For example, some students need additional support to interpret or understand an expectation. Others may benefit from more opportunities to practise a required skill or behaviour. For a small number of students, the use of certain disciplinary consequences may be considered inappropriate or ineffective due to complex trauma or family circumstances. These are all matters that our teachers and principal consider with each individual student in both the instruction of behaviour and the response to behaviour.

Our teachers are also obliged by law to respect and protect the privacy of individual students, so while we understand the interest of other students, staff and parents to know what punishment another student might have received, we will not disclose or discuss this information with anyone but the student's family. This applies even if the behavioural incident, such as bullying, involves your child. You can be assured that school staff take all matters, such as bullying, very seriously and will address them appropriately. We expect that parents and students will respect the privacy of other students and families.

If you have concerns about the behaviour of another student at the school, or the way our staff have responded to their behaviour, please make an appointment with the Principal to discuss the matter.

Student Wellbeing

Highfields State School offers a range of programs and services to support the wellbeing of students in our school. We encourage parents and students to speak with their class teacher or make an appointment to meet with the guidance officer if they would like individual advice about accessing particular services.

Learning and wellbeing are inextricably linked — students learn best when their wellbeing is optimised, and they develop a strong sense of wellbeing when they experience success in learning. The student learning and wellbeing framework supports state schools with creating positive school cultures and embedding student wellbeing in all aspects of school life through connecting the learning environment, curriculum and pedagogy, policies, procedures and partnerships for learning and life.

Curriculum and pedagogy

Schools build the foundations for wellbeing and lifelong learning through curriculum embedding personal and social capabilities (self-awareness, self-management, social

awareness and social management) in the implementation of the <u>P-12 curriculum</u>, <u>assessment and reporting framework</u>. Schools acknowledge the positive impact that a meaningful relationship between teacher and students can have on students' academic and social outcomes.

Policy and expectations

Within a school community there are specific health and wellbeing issues that will need to be addressed for the whole school, specific students, or in certain circumstances.

Specialised health needs

Highfields State School works closely with parents to ensure students with specialised health needs, including those requiring specialised health procedures, have access to a reasonable standard of support for their health needs whilst attending school or school-based activities.

This means that appropriate health plans are developed and followed for students with specialised health needs, that staff are aware of the student's medical condition and that an appropriate number of staff have been trained to support the student's health condition.

Medications

Highfields State School requires parent consent and medical authorisation to administer any medication (including over-the-counter medications) to students. For students requiring medication to be administered during school hours, the school can provide further information and relevant forms.

For students with a long-term health condition requiring medication, parents need to provide the school with a <u>Request to administer medication at school</u> form signed by the prescribing health practitioner.

Highfields State School maintains a minimum of one adrenaline auto-injector and asthma reliever/puffer, stored in the school's/campus first aid kit to provide emergency first aid medication if required.

Mental health

Highfields State School implements early intervention measures and treatments for students where there is reasonable belief that a student has a mental health difficulty. This includes facilitating the development, implementation and periodic review of a Student Plan.

Suicide prevention

Highfields State School school staff who notice suicide warning signs in a student should seek help immediately from the school guidance officer, senior guidance officer or other appropriate staff.

When dealing with a mental health crisis, schools call 000 when there is an imminent threat to the safety of student in the first instance, and where necessary provide first aid. In all other situations, Highfields State School staff follow suicide intervention and prevention advice by ensuring:

- the student is not left alone
- their safety and the safety of other students and staff is maintained
- students receive appropriate support immediately
- parents are advised
- all actions are documented and reported.

Student Support Network

Highfields State School is proud to have a comprehensive Student Support Network in place to help the social, emotional and physical wellbeing of every student. In addition to the assistance provided by class teachers, we have a team of professionals whose dedicated roles are to help ensure our school is an inclusive, nurturing environment.

Students can approach any trusted school staff member at Highfields State School to seek assistance or advice. If they are unable to assist they will provide guidance and help ensure the student is connected to the appropriate representative of the Student Support Network.

It is also important for students and parents to understand there are regional and statewide support services also available to supplement the school network. These include Principal Advisor Student Protection, Mental Health Coach, Autism Coach, Inclusion Coach, Success Coach, Advisory Visiting Teachers and Senior Guidance Officers.

Whole School Approach to Discipline

At Highfields State School, we understand that all behavioral incidents are teaching and learning opportunities. All conversations build, rather than destroy relationships. Positive Behaviour for Learning school is a whole-school framework (www.behaviour.education.qld.gov.au) that promotes positive behaviour across a school and helps schools develop safe and supportive learning environments.

At Highfields we have created a PBL evidence based framework to:

- analyse and improve student behaviour and learning outcomes
- ensure that only evidence-based practices are used correctly by teachers to support students
- continually support staff members to maintain consistent school and classroom improvement practices.

Students are explicitly taught the expected behaviours and establish clear and consistent boundaries. Staff take a proactive, preventative approach to ensure all students receive the appropriate level of support to help them to be successful at school. Student outcomes are monitored so identified students can receive additional support when needed, and a minority of students can access intensive support to enable them to engage successfully at school.

At Highfields State School, we believe discipline is about more than punishment. It is a word that reflects our belief that student behaviour is a part of the overall teaching and learning approach in our school. Our staff take responsibility for making their expectations clear, for providing supportive instruction about how to meet these expectations and strive to use behavioural incidents as opportunities to re-teach.

The development of the Highfields State School Student Code of Conduct is an opportunity to explain the PBL framework with parents and students, and gain their support to implement a consistent approach to teaching behaviour. The language and expectations of PBL can be used in any environment, including the home setting for students. Doing everything we can do to set students up for success is a shared goal of every parent and school staff member.

Any students or parents who have questions or would like to discuss the Student Code of Conduct or PBL, are encouraged to speak with the class teacher or make an appointment to meet with the Principal.

Differentiated and Explicit Teaching

Highfields State School is a disciplined school environment that provides differentiated teaching to respond to the learning needs of all students. This involves teaching expected behaviours and providing opportunities for students to practise these behaviours. Teachers reinforce expected behaviours, provide feedback and correction, and opportunities for practise.

Teachers at Highfields State School vary what students are taught, how they are taught and how students can demonstrate what they know as part of this differentiated approach to behaviour. These decisions about differentiation are made in response to data and day-to-day monitoring that indicates the behavioural learning needs of students. This enables our teachers to purposefully plan a variety of ways to engage students; assist them to achieve the expected learning; and to demonstrate their learning.

There are three main layers to differentiation, as illustrated in the diagram below. This model is the same used for academic and pedagogical differentiation.

These three layers map directly to the tiered approach discussed earlier in the Learning and Behaviour section. For example, in the PBL framework, Tier 1 is differentiated and explicit teaching for all students, Tier 2 is focussed teaching for identified students and Tier 3 is intensive teaching for a small number of students. Each layer provides progressively more personalised supports for students.

Every classroom in our school uses the PBL Expectations Matrix, as a basis for developing their behaviour standards. Using this matrix, the class teacher works with all students to explain exactly what each of the expectations look, sound and feel like in their classroom. The completed matrix is on display in every classroom, used as the basis of teaching expectations throughout the year and revisited regularly to address any new or emerging issues.

Focused Teaching

At Highfields State School, students may require additional support to meet behaviour expectations, even after being provided with differentiated and explicit teaching. These students may have difficulty meeting behavioural expectations in a particular period of the day or as part of a learning area/subject, and focused teaching is provided to help them achieve success.

Focused teaching involves revisiting key behavioural concepts and/or skills and using explicit and structured teaching strategies in particular aspects of a behaviour skill. Focused teaching provides students with more opportunities to practise skills and multiple opportunities to achieve the intended learning and expected behaviour.

Support staff, including teachers with specialist expertise in learning, language or development, work collaboratively with class teachers at Highfields State School to provide focused teaching. Focused teaching is aligned to the PBL Expectations Matrix, and student progress is monitored by the classroom teacher/s to identify those who:

- no longer require the additional support
- require ongoing focussed teaching

require intensive teaching.

Highfields State School has a range of Student Support Network staff in place to help arrange and deliver focused teaching to students who need more support to meet expectations. In addition, the school invests in the following evidence-informed programs to address specific skill development for some students.

Intensive Teaching

Research evidence shows that even in an effective, well-functioning school there will always be approximately 5% of the student population who require intensive teaching to achieve behavioural expectations. Intensive teaching involves frequent and explicit instruction, with individuals or in small groups, to develop mastery of basic behavioural concepts, skills and knowledge.

Some students may require intensive teaching for a short period, for particular behaviour skills. Other students may require intensive teaching for a more prolonged period. Decisions about the approach will be made based on data collected from their teacher or teachers, and following consultation with the student's family.

For a small number of students who continue to display behaviours that are deemed complex and challenging, then individualised, function-based behaviour assessment and support plans and multi-agency collaboration may be provided to support the student. This approach will seek to address the acute impact of barriers to learning and participation faced by students who are negotiating a number of complex personal issues.

Students who require intensive teaching will be assigned an individual mentor at the school that will oversee the coordination of their program, communicate with stakeholders and directly consult with the student.

Legislative Delegations

Legislation

- Anti-Discrimination Act 1991 (Qld)
- Child Protection Act 1999 (Qld)
- Commission for Children and Young People and Child Guardian Act 2000
- Commonwealth Disability Discrimination Act 1992
- Commonwealth Disability Standards for Education 2005
- Criminal Code Act 1899 (Qld)
- Education (General Provisions) Act 2006
- Education (General Provisions) Regulation 2017
- Human Rights Act 2019 (Qld)
- Information Privacy Act 2009 (Qld)
- Judicial Review Act 1991 (Qld)
- Right to Information Act 2009 (Qld)
- Police Powers and Responsibilities Act 2000 (Qld)
- Working with Children (Risk Management and Screening) Act 2000
- Workplace Health and Safety Act 2011 (Qld)
- Workplace Health and Safety Regulation 2011 (Cwth)

Delegations

Under the Education (General Provisions) Act 2006, state school principals are responsible for "controlling and regulating student discipline in the school".

Principals are afforded a number of **non-delegable powers** to assist them to meet this obligation, including the authority to suspend, exclude or cancel the enrolment of a student at the school. These decision-making responsibilities cannot be delegated to other staff in the school, such as deputy principals.

The details of these responsibilities are outlined in the legislative instruments of delegation and instruments of authorisation provided below:

- Education (General Provisions) Act 2006 Director-General's delegations
- Education (General Provisions) Act 2006 Minister's delegations
- Education (General Provisions) Act 2006 Director-General's authorisations
- Education (General Provisions) Regulation 2006 Minister's delegations
- Education (General Provisions) Regulation 2017 Director-General's delegations

Disciplinary Consequences

The disciplinary consequences model used at Highfields State School follows the Positive Behaiour for Learning structure.

The majority of students will be confident and capable of meeting established expectations that are clear, explicitly taught and practised. In-class corrective feedback, sanctions and rule reminders may be used by teachers to respond to low-level or minor problem behaviours.

Some students will need additional support, time and opportunities to practise expected behaviours. Approximately 15% of the student population may experience difficulty with meeting the stated expectations, and even with focussed teaching, in-class corrective feedback, sanctions and rule reminders continue to display low-level problem behaviour. A continued pattern of low-level behaviour can interfere with teaching and learning for the whole class, and a decision may be needed by the class teacher to refer the student to the school administration team immediately for determination of a disciplinary consequence.

For a small number of students, approximately 2-5%, a high level of differentiated support or intensive teaching is required to enable them to meet the behavioural expectations. This may be needed throughout the school year on a continuous basis. The determination of the need will be made by the principal in consultation with staff and other relevant stakeholders. On occasion the behaviour of a student may be so serious, such as causing harm to other students or to staff, that the principal may determine that an out of school suspension or exclusion is necessary as a consequence for the student's behaviour. Usually this course of action is only taken when the behaviour is either so serious as to warrant immediate removal of the student for the safety of others, and no other alternative discipline strategy is considered sufficient to deal with the problem behaviour.

The differentiated responses to problem behaviour can be organised into three tiers, with increasing intensity of support and consequences to address behaviour that endangers others or causes major, ongoing interference with class or school operations.

Differentiated

Class teacher provides in-class or in-school disciplinary responses to low-level or minor problem behaviour. This may include, but is not limited to:

- Pre-correction (e.g. "Remember, walk quietly to your seat")
- Non-verbal and visual cues (e.g. posters, hand gestures)
- Whole class practising of routines
- Ratio of 5 positive to 1 negative commentary or feedback to class
- Corrective feedback (e.g. "Hand up when you want to ask a question")
- Rule reminders (e.g. "When the bell goes, stay seated until I dismiss you")
- Explicit behavioural instructions (e.g. "Pick up your pencil")
- Proximity control
- Tactical ignoring of inappropriate behaviour (not student)
- Revised seating plan and relocation of student/s
- Individual positive reinforcement for appropriate behaviour
- Classwide incentives
- Reminders of incentives or class goals
- Redirection
- Low voice and tone for individual instructions
- Give 30 second 'take-up' time for student/s to process instruction/s
- Reduce verbal language
- Break down tasks into smaller chunks
- Provide positive choice of task order (e.g. "Which one do you want to start with?")
- Prompt student to take a break or time away in class
- Model appropriate language, problem solving and verbalise thinking process (e.g. "I'm not sure what is the next step, who can help me?")
- Provide demonstration of expected behaviour
- Peer consequence (e.g. corrective feedback to influential peer demonstrating same problem behaviour)
- Private discussion with student about expected behaviour
- Reprimand for inappropriate behaviour
- Warning of more serious consequences (e.g. removal from classroom)
- Detention

Focussed

Class teacher is supported by other school-based staff to address in-class problem behaviour. This may include, but is not limited to:

- Functional Behaviour Assessment
- Individual student behaviour support strategies (e.g. Student behaviour plan)
- Targeted skills teaching in small group
- Token economy
- Detention
- Behavioural contract
- Counselling and guidance support
- Self-monitoring plan
- Check in Check Out strategy
- Teacher coaching and debriefing
- Referral to Student Support Network for team based problem solving
- Stakeholder meeting with parents and external agencies

Intensive

School leadership team work in consultation with Student Support Network to address persistent or ongoing serious problem behaviour. This may include, but is not limited to:

Functional Behaviour Assessment based individual support plan

- Complex case management and review
- Stakeholder meeting with parents and external agencies including regional specialists
- Temporary removal of student property (e.g. mobile phone)
- Short term suspension (up to 10 school days)
- Long term suspension (up to 20 school days)
- Charge related suspension (student has been charged with a serious criminal offence is suspended from school until the charge has been dealt with by the relevant justice authorities)
- Suspension pending exclusion (student is suspended from school pending a decision by the Director-General or delegate (principal) about their exclusion from school)
- Exclusion (student is excluded from a particular state school site, a group of state schools or all state schools in Queensland for a defined period of time or permanently)
- Cancellation of enrolment for students older than compulsory school age who refuse to participate in the educational program provided at the school.

School Disciplinary Absences

A School Disciplinary Absence (SDA) is an enforced period of absence from attending a Queensland state school, applied by the Principal as a consequence to address poor student behaviour. There are four types of SDA:

- Short suspension (1 to 10 school days)
- Long suspension (11 to 20 school days)
- Charge-related suspension
- Exclusion (period of not more than one year or permanently).

At Highfields State School, the use of any SDA is considered a very serious decision. It is typically only used by the Principal when other options have been exhausted or the student's behaviour is so dangerous that continued attendance at the school is considered a risk to the safety or wellbeing of the school community.

Parents and students may appeal a long suspension, charge-related suspension or exclusion decision. A review will be conducted by the Director-General or their delegate, and a decision made within 40 schools days to confirm, amend/vary or set aside the original SDA decision by the Principal.

The appeal process is a thorough review of all documentation associated with the SDA decision and provides an opportunity for both the school and the family to present their case in the matter. Time is afforded for collection, dissemination and response to the materials by both the school and the family. It is important that the purpose of the appeal is understood so that expectations are clear, and appropriate supports are in place to ensure students can continue to access their education while completing their SDA.

Re-entry following suspension

Students who are suspended from Highfields State School may be invited to attend a reentry meeting on the day of their scheduled return to school. The main purpose of this meeting is to welcome the student, with their parent/s, back to the school. It is **not a time** to review the student's behaviour or the decision to suspend, the student has already received a punishment through their disciplinary absence from school. The aim of the reentry meeting is for school staff to set the student up for future success and strengthen home-school communication.

It is not mandatory for the student or their parents to attend a re-entry meeting. It may be offered as a support for the student to assist in their successful re-engagement in school following suspension.

Arrangements

The invitation to attend the re-entry meeting will be communicated via telephone and in writing, usually via email. Re-entry meetings are short, taking less than 10 minutes, and kept small with only the Principal or their delegate attending with the student and their parent/s.

A record of the meeting is saved in OneSchool, under the Contact tab, including any notes or discussions occurring during the meeting.

Structure

The structure of the re-meeting should follow a set agenda, shared in advance with the student and their family. If additional items are raised for discussion, a separate arrangement should be made to meet with the parent/s at a later date and time. This meeting should be narrowly focussed on making the student and their family feel welcome back into the school community.

Possible agenda:

- Welcome back to school
- Check in on student wellbeing
- Discuss any recent changes to school routine or staffing
- Offer information about supports available (e.g. guidance officer)
- Set a date for follow-up
- Thank student and parent/s for attending Walk with student to classroom

Reasonable adjustments

In planning the re-entry meeting, school staff will consider reasonable adjustments needed to support the attendance and engagement of the student. This includes selecting an appropriate and accessible meeting space, organising translation or interpretation services or supports (e.g. AUSLAN), provision of written and/or pictorial information and other relevant accommodations. The inclusion of support staff, such as guidance officers or Community Education Counsellors, may also offer important advice to ensure a successful outcome to the re-entry meeting.

School Policies

Temporary removal of student property

The removal of any property in a student's possession may be necessary to promote the caring, safe and supportive learning environment of the school, to maintain and foster mutual respect between all state school staff, students and visitors. Ensure this section of the Student Code of Conduct clearly details information about the *Temporary removal of student property by school staff procedure*, including:

- o a clear explanation of the items considered inappropriate to bring to school
- that state school staff may in certain circumstances remove student property without the consent of parents or students
- o the limits on state school staff searching bags and accessing information from temporarily removed student property, such as mobile phones
- o examples of property that may be temporarily removed, such as bags, mobile phones, jewellery or prohibited items such as knives
- examples of the amount of time certain property may be temporarily removed (e.g. end of day or school week)
- that student property may be seized by the police.

Use of mobile phones and other devices by students

The use of mobile phones, tablets, laptop computers, wearable technology or sensing devices in class is disruptive to the learning environment of all students and should be discouraged. Parents wishing for their child to use these devices in special circumstances should negotiate arrangements with the Principal.

It is acknowledged that in some circumstances, mobile phones, and those with the capacity to record digital images, can be appropriately incorporated into the learning program.

The policy also applies to students during school excursions, camps and extra-curricular activities. It is important that students display courtesy, consideration and respect for others whenever they are using a mobile phone. Mobile phones are to be registered in/out through the office prior to and after school each day. Mobile phones should not be left in student's school bags.

Preventing and responding to bullying

At Highfields State School, we believe that bullying is unacceptable behaviour and not to be tolerated.

All members of our school community have the right to feel safe and secure both inside and outside the classroom.

We define bullying as any behaviour, by an individual or group, whose intent is to cause distress to another through verbal, social, physical or psychological actions. Bullying may include **harassment** and may be **racist** and/or discriminatory in nature.

Bullying can take many forms. At Highfields State School, we have identified these behaviours as some of the forms of bullying.

VERBAL	WRITTEN / VISUAL	SOCIAL	PHYSICAL	PYSCHOLOGICAL
 Name Calling Jeering Teasing Put downs Threats Social innuendo Retaliation Abusive language Making suggestive comments 	Notes Email	Social isolation Group exclusion Peer group pressure	 Pushing Kicking Punching Tripping Spitting Use of weapons Intimidation Throwing objects Inappropriate gestures Stealing hats Hiding Property Eye contact/looks 	 Exclusion from groups Social isolation Threat, retaliation Revenge

This is by no means a comprehensive list and other actions not listed may be considered bullying as well.

Our proactive approach is based on the delivery of a structured program throughout the whole school that helps students:

- understand their role within the school
- understand the rules and school community values
- identify bullying behaviours
- learn a range of pro social skills aimed at dealing with situations of bullying
- help all students to make better choices about their behaviour

Our reactive approach will help students:

- to identify their behaviour
- reflect upon their choices through timeout
- discuss and practise a range of strategies that empowers "victims"
- discuss and practise a range of strategies that helps "perpetrators" interact positively with others
- self evaluate their efforts at new behaviour
- interim victim safety program

Appropriate use of social media

Cyberbullying response flowchart for school staff

How to manage online incidents that impact your school

Student protection

If at any point the principal forms a reasonable suspicion that a student has been harmed or is at risk of harm they have a responsibility to respond in accordance with the Student protection procedure.

Explicit images

If the investigation involves naked or explicit images of children, staff should not save, copy, forward or otherwise deal with the content, as per the Temporary removal of student property by se too stall procedure. This includes onto OneSchool records, Refer to the investigative process outlined in 'Responding to Incidents involving naked or explicit images of children' from the Online incident

Help

Refer to the Calina is guidelines for more details, or if assistance is required, contact the Cybersafety and Reputation Management (CSRM)team on 3034 5035 or Eybersafety.RepulationManagement@ged.qld.

Does the online behaviour/incident negatively impact the good order and management of the school?

OR

1. Initiate an incident response

Start an incident management tog (running sheet) which records times and dates of events, observations, tasks completed, persons involved and written conversational notes.

2. Collect evidence

Gather and preserve any evidence of the online content or a potential unlawful online behaviour, where legally permissible. Confiscation of digital devices can only be done under the temporary removal of student properly by school staff procedure.

3. Is there a potential crime?

The <u>Queensland Criminal Code</u> contains several applicable sections for cyberbullying. A list of potential relevant criminal offences can be viewed at Appendix 3, and include:

- unlawful stalking
- computer hacking and misuse
- possession, distribution and making child exploitation material
 fraud obtaining or dealing with identification information
- · criminal defamation.

Principals may start contact with a law enforcement agency (LEA) by completing an LEA referret form. Information can be shared when reasonably satisfied the disclosure is necessary for the prevention, detection, investigation, prosecution or punishment of a criminal offence or to assist in averting a serious risk to the life, health or safety

Principals may continue to investigate the matter for disciplinary purposes, subject to all laws and department

inform the student's parent/s (and student if appropriate) of their options:

- 1. Report the incident to an external agency such as police, Office the eSafety Commissioner or the
- 2. Report the online content/behaviour using the online tools provided by the website or app.

Principals may start contact with a law enforcement agency (LEA) by completing an LEA referral form, under the Disclosing personal information to law enforcement agencies procedure. Refer back to Step 3 to report potential crimes that do not negatively impact the good order of the school.

Content may not constitute a criminal

offence requiring police involvement but it may negatively impact the good of a person or where the disclosure is in the public interest. For access to the relevant forms, refer to Disclosing order and management of the school w enforcement agencles procedure. Principals can take action for the online behaviour as outlined below

4. Take steps to remove the upsetting or inappropriate content

Request poster to remove, use online reporting tools or if assistance is required, contact the CSRM team.

5. Managing student behaviour

Where the online behaviours of students do negatively impact the good order and management of the school, the principal must take appropriate follow-up action. Where appropriate:

- take statutory disciplinary action to address cyberbullying:
 - that occurs outside of school hours or school grounds that also negatively affects the good order and management of the school (e.g. where the conduct, threats, intimidation or abuse have created, or would likely create a risk of, substantial disruption within the school environment, or where the conduct, threats,
 - intimidation or abuse has or might reach school premises):
 that is undertaken on or originating from school premises during school hours, or by means of use of school ICT, concerning other students, staff or members of the
- OR use non-statutory options to deal with the matter, for example:
 - discussion with student's parents; student mediation;
 - apology:
 - ICT / mobile technology ban;
 - guidance referral.

6. Student welfare

Regardless of whether or not the cyberbullying is a matter that must be dealt with by the school Principal as a disciplinary matter or by afternative means (see 5 above), Principals must consider and support the wellbeing of any student who is displaying apparent negative effects from cyberbullying, by means of offering the student guidance officer support.

7. Recording the incident on OneSchool

If the incident was resolved at school-level, record details of the incident, as reported to the school and investigated through the incident management process, in the student's OneSchool behaviour record.

Bullying response flowchart for teachers

Please note these timelines may be adjusted depending on the unique circumstances and risk associated with each situation. This is at the professional judgment of the staff involved. Timeframes should be clearly discussed and agreed with student and family.

Key contacts for students and parents to report bullying:

Prep to Year 6 - Class teacher

Highfields State School Deputy Principals

First hour Listen

Day one
Document

- Provide a safe, quiet space to talk
- Reassure the student that you will listen to them
- Let them share their experience and feelings without interruption
- If you hold immediate concerns for the student's safety, let the student know how you will
 address these. Immediate in this circumstance is where the staff member believes the
 student is likely to experience harm (from others or self) within the next 24 hours
- Ask the student for examples they have of the alleged bullying (e.g. hand written notes or screenshots)
- Write a record of your communication with the student
- Check back with the student to ensure you have the facts correct
- Enter the record in OneSchool
- · Notify parent/s that the issue of concern is being investigated

Day two Collect

- Gather additional information from other students, staff or family
- Review any previous reports or records for students involved
- Make sure you can answer who, what, where, when and how
- Clarify information with student and check on their wellbeing

Day three Discuss

- Evaluate the information to determine if bullying has occurred or if another disciplinary matter is at issue
- Make a time to meet with the student to discuss next steps
- Ask the student what they believe will help address the situation
- Provide the student and parent with information about student support network
- · Agree to a plan of action and timeline for the student, parent and yourself

Day four Implement

- · Document the plan of action in OneSchool
- Complete all actions agreed with student and parent within agreed timeframes
- Monitor the student and check in regularly on their wellbeing
- Seek assistance from student support network if needed

Day five Review

- Meet with the student to review situation
- · Discuss what has changed, improved or worsened
- Explore other options for strengthening student wellbeing or safety
- · Report back to parent
- · Record outcomes in OneSchool

Ongoing Follow up

- Continue to check in with student on regular basis until concerns have been mitigated
- Record notes of follow-up meetings in OneSchool
- Refer matter to specialist staff within 48 hours if problems escalate
- Look for opportunities to improve school wellbeing for all students

Restrictive Practices

In some very rare situations, where there is immediate risk of physical harm to the student or other people, and when all other alternative strategies have failed to reduce the risk, it may be necessary for staff to use restrictive practices.

The use of restrictive practices will always be as a last resort, when there is no other available option for reducing immediate risk to the student, staff or other people. Restrictive practices are not used for punishment or as a disciplinary measure.

The department's <u>Restrictive practices procedure</u> is written with consideration for the protection of everyone's human rights, health, safety and welfare. There are six fundamental principles:

- 1. Regard to the human rights of those students
- 2. Safeguards students, staff and others from harm
- 3. Ensures transparency and accountability
- 4. Places importance on communication and consultation with parents and carers
- 5. Maximises the opportunity for positive outcomes, and
- 6. Aims to reduce or eliminate the use of restrictive practices.

Very rarely restrictive practices will be planned and staff will employ, when necessary, prearranged strategies and methods (of physical restraint/ mechanical restraint/ clinical holding) which are based upon behaviour risk assessment or clinical health need and are recorded in advance. The use of planned strategies will only be where there is foreseeable immediate risk consistent with the **Restrictive practices procedure**.

Seclusion will not be used as a planned response and will only be used in serious circumstances for managing an unforeseeable situation in an emergency. It will be used for the shortest time possible and in a safe area that presents no additional foreseeable risk to the student. In such emergencies, a staff member will observe the student at all times and seclusion will cease as soon as possible.

Following the use of any restrictive practice, a focused review will help staff to understand how they responded to the risk in any incident that involved the use of a restrictive practice. Staff will consider whether there are other options for managing a similar situation in the future. This strategy works well for reducing the use of restrictive practices.

All incidents of restrictive practices will be recorded and reported in line with departmental procedures.

Critical Incidents

At Highfields State School, we have a consistent understanding of how to respond to emergencies that seriously endangered students or others. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe.

Crisis plan:

- 1. Verbally support student to move to a safe area away from other students (as per student support plan/s where applicable).
- 2. Staff member instructs class to move away from the unsafe student/s or area.

- 3. One staff member to remain within safe proximity of the situation or student's exhibiting the unsafe behaviour. If possible, remove potentially unsafe objects
- 4. Staff member to contact the office
- 5. If needed staff member to contact Team Leader or delegate
 - a. Specialists/Leade rship Team Principal
 - b. Prep/Year 1/Year 2/Year 3 Lower School Line Manager (Deputy Principal)
 - c. Year 4/Year 5/Year 6 Upper School Line Manager (Deputy Principal)
 - d. Special Education Teachers and Teacher Aides Head Of Special Education Services
 - i. Further directions will then be given.
- 6. Team Leader or delegate to contact parents / school if deemed necessary.
 - i. Further directions will be given.

If student/s remove themselves from the school site, or group whilst off-campus, staff will **not** chase the student/s, but will endeavour to keep the student/s in sight and attempt to minimise the risk of further danger or harm to self or others. Parents and the Queensland Police Service will be contacted.

Physical Intervention

Staff may make legitimate use of physical intervention if all non-physical interventions have been exhausted and a student is:

- physically assaulting another student or staff member
- posing an immediate danger to him/herself or to others
- committing property destruction which is severe enough to place the student or others in danger.

Appropriate physical intervention may be used to ensure that Highfields State School's duty of care to protect students and staff from foreseeable risks of injury is met. The use of physical intervention is only considered appropriate where the immediate safety of others is threatened and the strategy is used to prevent injury.

Physical intervention can involve coming between students, blocking a student's path, leading a student by the hand/arm, shepherding a student by placing a hand in the centre of the upper back, removing potentially dangerous objects and, in extreme situations, using more forceful restraint.

It is important that all staff understand:

- physical intervention cannot be used as a form of punishment
- physical intervention must not be used when a less severe response can effectively resolve the situation
- the underlying function of the behaviour.

Physical intervention is not to be used as a response to:

- property destruction (unless severe enough to place students or others in danger)
- school disruption
- refusal to comply
- · verbal threats
- leaving a classroom or the school, unless student safety is clearly threatened.

Any physical intervention made must:

- be reasonable in the particular circumstances,
- be in proportion to the circumstances of the incident
- always be the minimum force needed to achieve the desired result, and
- take into account the age, stature, disability, understanding and gender of the student.

Record keeping

Each instance involving the use of physical intervention must be formally documented
